EXPERIENCE

Senior Product Designer, AI & Developer | 1Password

SEP 2024 - PRESENT, TORONTO, ON

- Defining and leading 0-1 design strategy for multiple AI & Developer tools features, driving developer growth up 3.4x from 77k to 263k users.
- Leading design for personal AI agent integrations with Meta Muse, Instinct, Dots, GrokBot, and Town, while driving 96% growth in brokered credential adoption to date.
- Led growth strategy across three products, launching 1Password's first self-serve multi-product trial that accelerated lead acquisition, generated $441K in revenue to date, and contributed $1.6M in potential NNARR pipeline.
- Leading AI readiness initiatives by creating bi-weekly workshops and hands-on lessons that equip 40+ designers cross-org to use Cursor, Git/GitHub, Terminal, and foundational HTML, CSS, and JavaScript.

Senior Product Designer | Capintel

MAR 2024 - SEP 2024, TORONTO, ON

- Supported a successful expansion of our core product into the U.S. market which led to a 40% increase in sales volume in 2024.
- Established UX research processes and practices, leading the company's first user research studies and presenting insights through structured shareouts.

Senior Product Designer, Privacy & Security | Mozilla

MAY 2021 - FEB 2024, TORONTO, ON

- Owned design and strategy for our core global VPN product helping to increase MRR ~90% ($334k to $656k).
- Led design discovery and execution of all major features which grew our subscribers from 50k active subs to 127k active subs in 30 countries.
- Led the initiative to improve the VPN's conversion funnel, resulting in support tickets dropping by ~60% and account conversion improving by ~50%.
- Led org-wide design system audit, rebuild and maintenance that was scaled to 4 products.

Product Designer | Intrado

MAR 2021 - MAY 2021, TORONTO, ON

- As the sole designer I was responsible for design strategy, research and execution of 5 major features of our core SaaS product.
- Led the org-wide design audit and the creation of internal design system within 3 months

Software Engineer | InvestCloud Inc.

SEP 2018 - MAR 2021, BURLINGTON, ON

- Design RESTful web APIs to seamlessly extract client data from multiple CRM systems.
- Assess and resolve data quality issues across 7 different client accounts.

PROFILE

I'm a product designer and creative technologist with 8+ years of experience working across disciplines. I focus on systems-level thinking, connecting strategy, user needs, and execution to solve complex problems at scale. I'm particularly interested in shaping product direction, scaling design systems, and crafting thoughtful, high-quality experiences. Outside of work, I have a deep appreciation for a well-designed pair of shoes.
